

Explore your future with the power people

AVK are the UK's leading provider of critical power systems and maintenance, specialising in all aspects of the design, planning, implementation and on-going maintenance of critical power systems.

We are the largest supplier of standby power solutions to the Data Centre, Financial, Healthcare and Manufacturing sectors in the UK, with 6 offices across the UK and Ireland, and operational sites across the world.

For over 30 years we've been providing Generator and UPS solutions for mission critical services and systems. Since our founding in 1989, AVK have enjoyed steady and consistent growth, not only in size, but also our reputation. We are trusted by many of the UK's largest Blue-Chip companies to

design, install and maintain 100% power integrity to guarantee their operations when mains power fails.

The Next Generation of Sustainable Energy Solutions

We're always working to meet the changing demands of our diverse range of clients, with the business growing to offer alternative energy solutions to the marketplace, including gas generation, HVO/renewal fuel upgrades and battery storage systems.

As a result of our strategic growth, we have ambitious plans for the future. We're looking for the next generation of talented people to join us on our mission to provide the right kind of power solution for today, while building a better world of energy for tomorrow.
